Dear Customers,

There's one problem we're all facing at the moment:

„Skilled workers wanted!“

Yes, we need them urgently, these skilled workers – not only to maintain craft traditions, but also to preserve consolidated, perhaps irretrievable knowledge and skills that have grown over generations.

Our charming toys and high-quality sports equipment are designed and constructed in the ore mountains – a landscape and region that makes outstanding achievements in „wood craftsmanship“ through its culture.

The people in the ore mountains love what they do and our incentive is to maintain, preserve and further develop this craftsmanship and tradition. In the spirit of this apt quote

*„Tradition is not the worship of ashes,
but the preservation of fire.“*

Jean Jaurès (1859-1914), French politician, et al.

We too are on fire for the things we do: find our igniting ideas and products in the new Erzi catalogue – we look forward to your fiery enthusiasm!

Thank you for your drive and trust – it is a pleasure to work with you!

Kind regards,

Nadja Weinzirol-Stumm
and the entire Erzi Team!

MAKING OF ...

... beautiful product photos!

It's not just the cute little shop items themselves that we love to show down to the last detail – no, the pictures should also be perfect; after all, they last quite a while...

We move each raspberry, each blueberry, each ice cube until the whole picture looks as harmonious as possible and everything appears in its best light.

28147 Assortment Fresh Lemonade on page

56

We would like to give you a **little glimpse behind the scenes...**

To get just the right photo for the catalogue or a short video for the internet, some preliminary work is required.

The very first thing you need, of course, is a great product – at best, a new one!

As soon as a sample is available, it's time to go: off to the studio – make sure you haven't forgotten anything, **switch on the lights, turn on the camera, take the picture** – and you're done!

Um... it's not that simple...

Not only does everything have to be put in the **right light**, but also in the **right place**. In the end, the pictures should look completely natural and quite simple. Simple is not always easy, however, and that's the part we find fun – **challenge accepted!**

SOCIAL MEDIA ...

... #whataboutthehashtags

Have you ever been on our insta page? Or our Facebook? Or do you prefer to flip through a real, paper catalogue, feel the pages between your fingers and immediately fold down the corners of pages with your favourite toys?

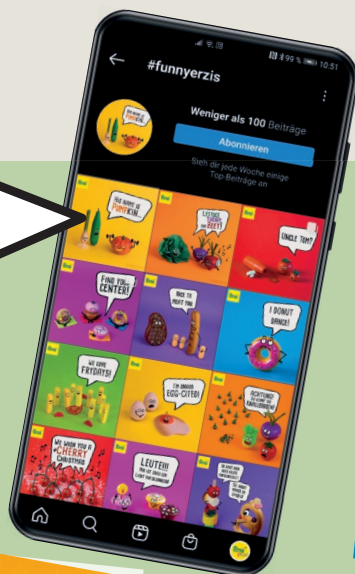

To be honest, we are also real haptics – no wonder – would we make wooden toys otherwise?

But we also love to see our toys in your shops, children's rooms, classrooms and group rooms on social media! And that works incredibly well on Instagram and the like.

If you haven't discovered our account yet, get out your mobile phone and check out @erzi.play

FUN-Fact: Did you know that, in every sixth post, we joke around with our cheeky fruities?!? #funnyerzis

TOGETHER ...

NEW

... also means with each other in this case!

In **team games**, you don't just depend on each other, you also have to listen carefully yourself. Being able to express yourself precisely and understandably is just as much a part of it as being listened to.

If **communication is successful**, the **common goal** can be achieved more successfully – be it faster or simply better. But often even that has to be figured out with each other.

The **FUN team game set** includes a variety of different games designed for a wide range of participants. A **sturdy ring binder** contains several illustrated instructions for **various team-building tasks** that are not only fun, but also offer variations. **Let the games begin!**

TEAM BUILDING
FOR CHILDREN
AND ADULTS

What makes a team?

Is it about doing something together? It's not just „together,“ but „with each other“!

Together is part of being in community, i.e., achieving something as a group – with each other, not just side by side!

NO PANIC, IT'S ORGANIC!

The very place for shopping ...

Shopping can be such a fun!

Erzi grocery stores have always been an all-round favourite in nurseries and group play areas. Shops and supermarkets form an essential part of role-playing games as they provide ample space for interaction and communication besides firing the imagination.

By nature, youngsters simply love doing the same things as grown-ups. Unconsciously, they learn to engage with other children and to rely on themselves whilst training their speech abilities, learning to count and to do simple arithmetic.

Twelve different kinds of food made of wood to play can be placed on small shelves or into baskets or bags and removed again. Children re-enact daily situations and thus learn to deal with different shapes and sizes. All parts in this assortment are suitable for the youngest children, they do not contain small parts that can be swallowed or inhaled. All colours are resistant to saliva and perspiration.

 content: 1 game board, 5 rotating ghosts (attachable with a turn- and snap-lock fastener), 25 stacking ghosts, wall mount fixture, fastening material, playing and mounting instructions
 material: birch plywood, laquered; beech, coloured laquered
 This role-play is suitable for all ages. The ghosts appear in different, luminous colours with funny faces. When the ghosts are stacked, the game becomes suspenseful: Which ghost will make the stack fall?! If the Erzi Ghost Board is mounted vertically, the 30 ghosts in total can be stacked the highest.
 For concentration and strategy, children can achieve great success with this variant. If the stack falls, however, a stacking ghost remains standing only rarely. Due to different stacking heights, small and older children can play with the ghost board at the same time. The slim form makes it possible to integrate the ghost board into small playing areas as well. In the crosswise format, the ghost board is particularly suited for small children. Up to 5 children next to each other can play with the ghosts or build small ghost stacks. Here, the storage slots can also be used as grab handles. Arranging the ghosts in the storage slots is a good way to make cleaning up fun.

Water and Marble Run

length: 50,5 cm width: 14,5 cm
 height: 7,5 cm Ø: -
 weight: 2,35 kg

content: 7 marble runs in wood; 4 wooden scrapers; 1 cork plug; 3 marbles in wood and glass
 material: beech, coloured laquered; birch plywood
 "The goal is the journey itself". This is a playful method for children to learn by dint of hard work how rewarding the whole game can really be when the goal is finally reached. Running water or rolling marbles proceed on a downward course. No matter whether used in summer or in winter, indoors or out in the sandpit, children will derive fun and pleasure from this product everywhere and at any time of the year. A closer look at the way the Marble Course works suffices to disclose its true potential. A small dam brings the marble to a halt, causing the water to overflow. Small holes at the sides are ideally suitable for inserting small sticks or flowers which serve to decorate the route while enhancing creativity. A hole can make the marble or the water disappear and set it in motion again at another level. A supplied plug (cork) serves to complement this feature. Warning! Not suitable for children under 36 months. Choking and suffocation hazard! Contains small parts and balls.

height: 16 cm 1 pegboard: 8x8x33 cm
weight: 1,75 kg

content: 10 pegboards, 55 peg cubes, instructions
material: birch plywood, nature; beech, nature and coloured printed

Our counting towers enable children of pre-school and primary school age to explore numbers through play. They help to develop an imagination for quantities. Likewise, they playfully – and simply – illustrate number decomposition, simple addition and subtraction, and the concepts of „greater than“ and „less than“.

On the pegboards, numbers 1 to 10 can be explained with the cubes using four different coloured symbols (star – yellow, triangle – blue, square – green, circle – pink), Enabling the child's eye to quickly grasp and deal with small quantities. The clear symbolism also lets colour-blind children grasp the theme without barriers.

length:..... 50,5 cm width:..... 7,5 cm
height:..... 14,5 cm Ø:.....
weight:..... 365 g

content: 21 different wooden pieces, 2 wooden bowls, sorting templates to be cut out of fleece (40x40cm)

material: beech, nature and coloured laquered; polyester fleece printed

Differences are easiest to convey through examples. Our educational game provides a variety of different shapes, sizes and colours – turning sorting and comparing into child’s play!

Various contrasts are visually depicted on the printed fleece templates. The individual contrast tasks (small – large, round – square) can be cut out, and then the small parts are sorted according to the instructions with the help of the two wooden bowls. The game can be expanded easily by simply incorporating objects from the direct play environment when sorting. So, can you find more round, square, colourful ... things?

This game promotes motor skills, thinking structures, language, communication, a feel for haptics, an understanding of colours, etc.

HANDS-ON ...

... arithmetic & geometry!

Now simplified at long last!

To many people, mathematics is a fully abstract term, often quite hard to grasp without means of illustration. The educational game Fractions of a Whole not only conveys a visual impression of fractions, but also allows kiddies to gain hands-on experience!

1

COMPARE
VOLUMES FOR
EASY UNDER-
STANDING

INFO

The system comprises three principal components:

- Each part (whole, half, etc.) is designed as one self-contained solid unit instead of being made up of two pieces stuck together. This enables the formation to be visualized as a whole.
- All components are of the same colour (i.e. wood left in its natural state) so that they are easily recognizable as forming one single whole.
- Each piece is accorded its own space on the mat. If a cube needs to be formed from four quarters, the child removes each quarter from its mat and places it in the appropriate spot.

Educational Game Fractions of a Whole

length:..... 50,5 cm width:..... 7,5 cm
height:..... 14,5 cm Ø:..... -
weight:..... 736 g

content: 1 large cube – to form a whole, 2 halves, 4 quarters and 8 eights; 1 play mat (40x40cm)

material: beech, nature; polyester fleece, printed
Constructed from solid beech, this unique system is designed to teach children the various parts making up a whole number. While playing with the three-dimensional pieces i.e. cubes, kiddies learn to distinguish whole shapes and their individual constituents such as halves, quarters, eighths, etc. When advancing to higher primary school grades, they then learn how to express these shapes abstractly in the form of fractions.

This direct learning-by-playing method teaches youngsters the number of different possibilities of forming a cube, say from two halves, one half and four eighths, two quarters and one half, etc.

This educational game is highly recommendable for children with special needs.

 weight: 973 g

content: 6 geometric shapes (cube, quad, sphere, pyramid, cone and cylinder), 2 play mats (40x40cm)
 material: beech, nature; polyester fleece, printed
 This didactic set helps children to understand basic geometrical principles. By seeing, holding and playing children learn the meaning of bodies, surfaces, shapes, symmetry and relations. It's made of solid beechwood.

Solids are 10 or 6 cm high and 6 cm wide/in diameter.

The children learn the basic geometric principles through play. They learn the meaning of shapes, size, bodies and surfaces, symmetry and harmony. Children attribute relevant properties to geometric bodies by touching them. Didactic value is upgraded with matching geometric faces on the play mats for better understanding of surfaces, edges and corners.

Handicapped or not, youngsters can rely fully on their own senses when joining in the Panto-Mimo game. Panto-Mimo needs no particular instruction. Allowing children to play and move about at their own leisure encourages and challenges self-confidence, sense of balance, orientation skills, concentration and coordination. The super Panto-Mimo is a real challenge especially with two children engaged in interaction with one another.

Rocky Rocker

length: 42 cm width: 28,5 cm
 height: 17 cm Ø:
 weight: 1,8 kg

material: birch plywood, laquered
 The Rocky Rocker is a game and sport product which can be used for young and old, as single product or as connecting point between two Erzi balancing boards. It corresponds to all current security standards and guidelines and offers nevertheless a design without any screws or nails. The Rocky Rocker is a natural product with love to the details and varied challenges to the exercise capacities of the children. The product can be used as stool and sitting or standing balancing seesaw. The seesaw demands from the user teamwork, balance, consideration, patience and coordination.

Rocky Rocker is a playing and sports device that can be used as a stool, a seat and a rock in either kneeling or standing position. In the sitting and kneeling position, the user may hold onto the rods. When placing an Erzi balancing board in the middle of Rocky rocker, it becomes a rocker for two children with numerous game variations (such as marble track). The rocker is great for walking (not running) over it. Placing a balancing board with one end on the Rocky Rocker and hooking this in forms a fixed ramp catering for a variety of different applications. In most cases, however, Rocky Rocker can be used as a connection of two Erzi balancing boards. The interaction of the connected boards requires and encourages coordination and concentration skills. In this variant, both Erzi balancing boards should be suspended by the appropriate rods.

the clever slack system for children

Slackspot – a genuine Erzi quality product

Slackspot supports the motoric development of children, leads to self-assurance in everyday movements, and permits balancing as a team. The low balancing height of 10 cm provides for safe balancing without help - fall protection is not required. The adjustable belt tension and stopper bases on the bottom are only a few features that characterise the product. Whether used privately, in daycare centres, at physical therapy practices, or in foyers and waiting rooms, Slackspot does not require additional anchoring and can be integrated into many environments. Slackspot is delivered in a dismantled form and can be assembled using the provided tool without a problem.

MOUNTED WITH ONLY A FEW FLICKS OF THE WRIST

INFO

The use of Slackspot as a training and therapeutic device can support strengthening, sensomotoric training, the improvement of coordination and balance, or posture training.
